

Way of Life!

Jimny

Less stop, more go

Wait a second. Slow down. Take a breath. We know you don't like to stand still, but if we can grab your attention for just a second, we'd like to introduce a car that could make your non-stop life a whole lot easier. The Suzuki Jimny. An original unstoppable 4x4 that's perfect for the city. A real off-roader with a compact shape and lightweight frame and engine; making it one of the most affordable, low emission 4x4s around. In other words, the Jimny is just as essential for those hunting for a route through the morning traffic as it is for those searching for adventure.

The urban off-roader

The Jimny's classic 'mini' 4x4 looks come directly from Suzuki's heritage of creating fun off-roaders. Today, its practical design is just as handy for driving through the centre of town. Exterior features include all-important roof rails, privacy glass,¹ 15" alloy wheels* and a hard spare wheel disc. The distinct character styling and a choice of lively colours complete an exterior that's undeniably built for fun. The Jimny's a great city car. One that's just dying to go out and play.

Practically perfect

Do you really care about how we stitched the seat fabric or moulded the cup holders? We didn't think so. You just want them there when you need to put your coffee down. You want a place to pull the map from when you're lost. And you want a CD tuner that finds your favourite station when you're on the move. The Suzuki Jimny has everything taken care of; air-conditioning*, leather and velour seating*, and easy storage solutions. All the practical stuff you need to enjoy your action packed journey without worrying about a thing.

*JLX+ and SZ4 models only

Get out more

The easier the drive, the greater the possibilities. That's why the Jimny has power steering and a tough but lightweight frame surrounding its 1.3 litre engine. Compared to other 4x4s, it's low on both fuel costs and emissions and light and easy to manoeuvre whether parking in the street or powering up a hill. Which means you have everything you need to live in suburbia and explore the wilderness.

Taking fun more seriously

To fully enjoy your drive you need to be totally secure in your environment. So when it comes to safety, the fun stops and the Jimny gets serious. Driver and front passenger airbags are fitted as standard on all models. Front fog lamps help you to stay firmly on course in adverse weather conditions. And a push button operated 4WD means you can add tough 4x4 capability to the Jimny's agility on rough terrain or slippery roads. Full peace of mind for you and your passengers, so you can keep your mind on the road or track ahead.

Equipment

Why cram your car with fancy gadgets when everything you really need for your next adventure is right here? And all in a great new choice of colours.

JLX MODELS
