# A HUMAN-CENTRIC CAR FOR THE PASSIONATE

The Giulietta is an Alfa Romeo car before anything else. Designed totally around the person, it puts the driver at the centre, giving full command and control of information.

# FUEL YOUR INSTINCT

**Giulietta:** Power, energy and safety, ready to be unleashed on the road.

**Agility.** Cutting-edge McPherson front suspensions and Multilink rear suspensions, ideal for handling sharp corners with excellent grip, offering superior driving comfort.

**Fun.** Dual Pinion Active Steering for an exhilarating driving experience.

**Flexibility.** 6-speed manual or automatic transmission with the Alfa TCT double clutch, for more efficient and faster shifting, with a continuous torque output.

**Technology and sportiness.** Alfa™ DNA selector with three different dynamic vehicle responses according to the driving style and travelling conditions.

# IT TAKES ONLY ONE GLANCE TO RECOGNIZE IT

A strong, unique, clear, precise style. The new Giulietta is the true embodiment of Alfa Romeo design and beauty. The new honeycomb grid grille gives the front of the car a sporty and aggressive feeling. The distinctive Alfa Romeo trilobe, also with a honeycomb structure, communicates strength, balance and harmony. The headlamps, with a carbon-look treatment for the sporty versions, have an aggressive and glamorous edge. The unique and unmistakable rear lights - next to the new Giulietta logo - give it a modern, bold and sporty style.

DYNAMIC INTERIORS

# ENERGY FROM WITHIN

In the sports versions, they are in leather and Alcantara®.
