Mercedes-Benz User Experience Premium

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Voice control

- Activated by the keywords “Hey Mercedes” or via touch control buttons on the steering wheel, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection. If you’re feeling chilly, just say “Hey Mercedes, I feel cold” and MBUX will adjust the temperature for you
- MBUX is able to understand different accents and will adjust to you over time

Personalisation

- Turn the new S-Class into your very own Mercedes-Benz, thanks to the biometric authentication with voice recognition in every seat, face recognition (with 3D driver display), finger print scanner and PIN protection
- Take your personal profiles with you between cars – vehicle settings are no longer stored locally but within the user profile, which is connected to the customer’s Mercedes me account
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the optional 7-inch rear tablet, as well as touch control buttons on the steering wheel

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers. ²LINGUATRONIC off-board functions are currently only available for three years

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or a different price

Design	Technology	Plug-in Hybrid	Safety	Model lines	Model prices	Mercedes-AMG	Mercedes-AMG prices	Personalisation	Standard equipment	Genuine accessories	Technical data	Additional information
--------	------------	----------------	--------	-------------	--------------	--------------	---------------------	-----------------	--------------------	---------------------	----------------	------------------------

Technology

MBUX augmented reality head-up display makes the front windscreen part of the digital cockpit. With the help of transparent projections onto the windscreen, the driver's field of vision is enhanced with relevant information about the current driving situation.

12.8-inch OLED touchscreen central display with augmented reality, fingerprint scanner, haptic feedback and integrated climate controls.

MBUX 7-inch rear tablet with the ability to control many on-board functions.

12.3-inch 3D driver display provides a clear three-dimensional representation of the driving situation and other road users, along with warning and navigation information.

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or a different price.

Mercedes me connect Stay connected any time, anywhere.

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's oil level, tyre pressure and fuel from your phone so you'll be ready for every journey.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Mercedes-Benz Agent or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

²Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

³Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

Plug-in Hybrid Electric Vehicle (PHEV) The S 580 e 4MATIC and Mercedes-AMG S 63 E Performance.

Plug-in hybrid vehicles enjoy the same functionality of full Hybrid technology, with the added benefit that they can be charged from an external electricity source.

S 580 e 4MATIC

Petrol – 2,999 cc, 6-cylinder, 367 hp/270 kW
Electric motor – 150 hp/110 kW

Mercedes-AMG S 63 E Performance

Petrol – 3,982 cc, 8-cylinder, 612 hp/450 kW
Electric motor – 190 hp/140 kW

Available as:

Long AMG Line Premium, Long AMG Line Premium Plus and Long AMG Line Premium Plus Executive

Available as:

Mercedes-AMG S 63 E Performance Touring and Mercedes-AMG S 63 E Performance Night Edition

OTR from £118,460¹

OTR from £188,820¹

Technical details for S 580 e 4MATIC

Equivalent All-Electric Range (EAER) ²	61-62 miles
Charging time	
Public charging station (60 kW DC) 10-80% ³	20 mins
Public wallbox (11 kW AC, 3-phase) 0-100% ⁴	2 hrs 15 mins
Wallbox (7.4 kW AC, 3-phase) 0-100% ⁴	3 hrs 30 mins
Electric range consumption, combined ^{2,5}	252-256 Wh/km
Battery type (capacity)	lithium-ion (21.96 kWh)
Capacity on-board charger	11 kW AC; 60 kW DC

Technical details for Mercedes-AMG S 63 E Performance

Equivalent All-Electric Range (EAER) ²	19 miles
Charging time	
Wallbox (3.7 kW AC, 3-phase) 25-100% ⁶	3 hrs 15 mins
Electric range consumption, combined ^{2,5}	345 Wh/km
Battery type (capacity)	lithium-ion (10.5 kWh)
Capacity on-board charger	3.7 kW AC

Standard equipment

Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 19 mph, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds

Charging cable – Mode 2 cable (5 metres, straight) for domestic socket

Charging cable – Mode 3 cable (8 metres, straight) for wallbox and public charging stations

Charging socket

Charging system rated at 3.7 kW AC (Mercedes-AMG S 63 E Performance only)

Charging system rated at 11 kW AC (S 580 e 4MATIC only)

Charging system rated at 60 kW DC (S 580 e 4MATIC only)

Haptic accelerator pedal with ECO Assist

Pre-entry climate control⁷

Radar-based recuperation

Remote and Charging Services Plus⁷

¹The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£730.00 incl. VAT), new vehicle registration fee (£55.00), fuel (£50.00 incl. VAT), and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price. ²The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging. ³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 60 kW. ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 0-100% charge using a wallbox (three-phase) or standard socket (single-phase). ⁵The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency. ⁶Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 25-100% charge using a wallbox (three-phase) or standard socket (single-phase). ⁷The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers.

Mercedes me Charge¹ One registration, one contract, one billing.

Mercedes me Charge¹ provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse+ membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- Mercedes-EQ Vehicle Head unit

Green charging

All charging using Mercedes me Charge¹, will be retrospectively 'greened' by Mercedes-Benz. Please click [here](#) for more info.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge¹ is standard for one year with discounted IONITY rapid-charging for one year.

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers

Mercedes me Charge¹ Tariffs

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the new Mercedes me Charge¹ fixed-priced tariffs S, M and L. Owners of a new Plug-in Hybrid model will be entitled to the Mercedes me Charge¹ tariff M free of charge for the duration of 12 months.

Tariff L

Recommended for 'frequent drivers'

Choose our tariff L to benefit from the best fixed prices for public charging, including discounted rapid-charging at IONITY charging stations as well as all Mercedes me Charge¹ features. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All Mercedes me Charge¹ features
- Fixed prices per kWh (AC: £0.45/kWh; DC: £0.53/kWh)²
- IONITY rapid-charging stations discounted (£0.53/kWh)

£10.90/month

Tariff M

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 12 months but still want to benefit from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency, choose tariff M. This tariff is recommended for regular drivers.

Consisting of:

- All Mercedes me Charge¹ features
- Fixed prices per kWh (AC: £0.52/kWh; DC: £0.61/kWh)²
- IONITY rapid-charging stations discounted (£0.61/kWh)

Free of charge for the duration of 12 months.

Thereafter:

£4.90/month

Tariff S

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the Mercedes me Charge¹ features based on flexible prices per kWh. This tariff is recommended for casual drivers.

Consisting of:

- All Mercedes me Charge¹ features
- Flexible prices per kWh

£0/month

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers
page: <https://eu.charge.mercedes.me/web/en/daimler-gb/tariffs>

²Tariff rate excludes the BP Pulse charging network

Price information is not guaranteed and is subject to change. Definitive price information can be found on the Digital Charging Solutions

Next generation of home EV charging with Ohme

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing an Ohme charger.

Home charging with Ohme: from £925* incl. VAT and standard installation

Key benefits of Ohme:

Ohme specialise in providing future-proof electric vehicle charging solutions, in particular smart, affordable and easy-to-use charging products.

Save money: If you have a time-of-use tariff or a variable tariff, you'll pay less for your electricity at certain times of the day. Ohme uses your tariff information to charge your vehicle when the price is low to maximise your savings.

Ohme is the only EV charging provider to integrate with all energy tariffs, including Intelligent Octopus and OVO Charge Anytime – the next generation, smart EV charging tariffs.

Easy installation process.

Choice of tethered or untethered units.

Award-winning customer service – check Trustpilot for more information.

A 3-year warranty is included.

Connect your charger to the Ohme smartphone app to unlock smarter and cheaper charging at home. Easy-to-use, the Ohme app will give you full control to get more from your EV.

Ohme's chargers are compliant with the UK New Smart Charger Regulations for complete peace of mind.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger!¹ To find out whether you are entitled please contact your local Mercedes-Benz Agent.

Questions?

Please contact your local Mercedes-Benz Agent to submit an enquiry to your chosen charging partner on your behalf. To find your local Mercedes-Benz Agent, please click the button at the top right hand corner.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change

¹The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

Home charging with Pod Point Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a Pod Point home charger.

Home charging with Pod Point: from £925* incl. VAT and standard installation

For full terms and conditions please visit <https://pod-point.com/legal/home-charger-terms-of-sale>

Key benefits of Pod Point:

Pod Point is one of the leading provider of EV charging in the UK with over 200,000 home chargepoints installed.

A comprehensive 3 year 'swap out' warranty is included.

Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.

Built-in earthing protection removes the needs for expensive earth rods.

Choice of tethered or untethered units; £925 for a 7 kW universal, and £975 for 7 kW tethered.

The Pod Point public network consists of over 9,200 charging bays across the UK.

5 year warranty as standard, free of charge.

The standard installation package includes up to 15m of external cabling.

Utilise charge scheduling in conjunction with an off-peak EV tariff to reduce your charging costs by 70% compared with the current Energy Price Cap.¹

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.² To find out whether you are entitled please contact your local Mercedes-Benz Agent.

Questions?

Please contact your local Mercedes-Benz Agent to submit an enquiry to your chosen charging partner on your behalf. To find your local Mercedes-Benz Agent, please click the button at the top right hand corner.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

¹Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change ²Based on an off-peak tariff of 8 p/kWh compared with the energy price cap as of 1 October 2023 of 26.92 p/kWh ³The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

Driving Assistance package¹ Cares for what matters.

The new S-Class comes with standard ground-breaking innovations in safety, comfort and driving functions, to help you stay safe on the road.

Standard on all S-Class and Mercedes-AMG S-Class model lines.

Active Blind Spot Assist expanded with blind spot monitoring towards the front and side. Additional hazard indication of the blind spot warning system as well as the exit warning function via the ambient lighting

Active Braking Assist with cross-traffic function with turning manoeuvre function (responding to (among other things) crossing pedestrians when making a turn). Operating range on urban routes expanded to 74 mph

Active Distance Assist DISTRONIC responds to stationary road users to prevent collisions up to 80 mph

Active Emergency Stop Assist: able to assist in manual mode (previously on in DISTRONIC mode). Optional lane change by one lane (at 49 mph where no obstacles detected)

Active Evasive Steering Assist: responds to cyclists and ends of tailbacks in addition to pedestrians. Operating range on urban routes expanded to 67 mph

Active Lane Change Assist aids the driver with changing lanes by means of steering torque as soon as the driver initiates the change by activating the direction indicator

Active Lane Keeping Assist with enhanced comfort thanks to active steering intervention (instead of braking intervention). Additionally hazard indication via the ambient lighting

Active Speed Limit Assist ensures detected speed limits are automatically adopted as the set speed for Active Distance Assist DISTRONIC

Increased availability and cornering performance on carriageways with **Active Steering Assist**, more stern warnings to put hands on the steering wheel with new capacitive steering wheel

PRE-SAFE® PLUS and Impulse Side: when a rear-end collision threatens, PRE-SAFE® PLUS can initiate preventive measures, including warning following traffic and locking the brakes on standstill

Route-based speed adjustment with end of traffic jam function and Active Stop-and-go function adaption of speed before curves, roundabouts and junctions with end of traffic jam function

Traffic Sign Assist warns of inadvertently running a stop sign or red light

Type-specific rendering of detected road users across several lanes on the driver display

¹Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein

¹The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ³All engines are RDE (Real Driving Emissions) Step 2 Certified (6d-ISC-FCM). This results in a lower VED and BiK rate as these engines will not be subject to the diesel surcharge. A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to page 65 for the relevant rate for the second and subsequent years ³The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£730.00 incl. VAT), new vehicle registration fee (£55.00), fuel (£50.00 incl. VAT), and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

Become the AMG expert

Unleash a new level of performance.

Step into the world of performance and experience the AMG brand at Mercedes-Benz World – from the powerful sound of the engines to the smell of the leather to the unmistakable design of our vehicles.

Mercedes-Benz World invites all Mercedes-AMG customers to a complimentary adrenaline-packed driving experience. Feel the sensational AMG driving performance, develop your driving skills and even try your hand at power-sliding on the Wet Skid Circle. With expert one-to-one guidance from a Driving Specialist in the passenger seat, experience every inch of our Handling Circuits, Dynamic Straight and low friction surfaces.

[Click here for more information](#)

TERMS AND CONDITIONS

The following customers only are eligible: The first purchaser/registered keeper of a newly registered Mercedes-AMG. The complimentary training must be booked and taken within 12 months of email receipt. The training is available Monday - Friday only (excluding bank holidays) and subject to availability. Upgrades are available for an additional cost, details upon request. Transferable to individuals who reside at the same postal address only. Mercedes-Benz UK Limited reserves the right to amend or withdraw this training experience. Attendees must hold a full UK driving licence. Attendees will be required to sign the Mercedes-Benz World Driving Risk Acknowledgement prior to undertaking the training experience.

The training experience is also subject to the Mercedes-Benz World Terms and Conditions, as applicable. Retailer demonstrator vehicles are not eligible.

Communications and In-Car Entertainment (continued)

	AMG Line Premium	L AMG Line Premium Plus	L AMG Line Premium Plus Executive	L AMG Line Premium Plus Executive	
OLED central display – 12.8-inch touchscreen	●	●	●	●	Software update ² – updates the software of the vehicle's systems without having to visit the workshop
Parked vehicle locator ¹ – available to use free of charge for three years following activation ² , shows the position of the parked vehicle in a radius of approx. 1.5 km	●	●	●	●	Sound personalisation – a setup assistant with innovative algorithms identifies your music preferences together with you and sets the Burmester® sound system to match your requirements. It stores the result in a personal profile
Personalisation ¹ – available to use free of charge for three years following activation ² stores settings such as the radio station or navigation destination in the personal driver profile and enables these to be used in vehicles with the same telematics generation, the profile can be linked to the key, and the functions can therefore already be activated before getting in	●	●	●	●	Sound system – Burmester® 3D surround sound system
Pre-installation for Car Sharing ¹	●	●	●	●	Speed fencing ¹ – available to use free of charge for 3 years following activation ² , also lists when and where the pre-defined speed was exceeded
Pre-installation for Navigation Services ¹ – display of online content on the navigation map, parking spaces, weather information, local search	●	●	●	●	Stolen Vehicle Help ¹ (free of charge for 3 years from activation) – this service reduces the bureaucratic effort required and gives you an advantage in terms of time. In the event of theft, you can report it to the police. You can transfer the police file number (depending on country) plus the relevant vehicle and owner information quite simply via app to our certified partner's security centre. This centre will then coordinate with the local police station to track your vehicle
Remote and Charging Services Plus ¹ – available to use free of charge for three years following activation ² (S580 e 4MATIC only)	–	●	●	●	Telediagnosics ¹² – notifies the Customer Assistance Centre or the preferred Mercedes-Benz service partner when components with diagnostics capability need replacing (e.g. brake pads) and enables contact to be made via a pop-up message in the vehicle's multimedia system
Remote Door Locking and Unlocking ¹ – available to use free of charge for three years following activation ² , provides convenient remote monitoring	●	●	●	●	USB Plus package – four additional USB-C connections, two at the front and in the rear
Remote parking package ¹ – available to use free of charge for 3 years following activation ²	●	●	●	●	Valet protect ¹ – available to use free of charge for 3 years following activation ² notifies via the app when the ignition is switched on/off and when the vehicle moves outside a defined radius (1 km, 2.5 km or 5 km)
Remote retrieval of vehicle status ¹² – shows mileage, tyre pressure, washer fluid level, etc.	●	●	●	●	Wireless charging system for mobile devices in the front ³
Remote vehicle diagnostics ¹² – enables better support in the workshop by allowing the Mercedes-Benz service partner to query the vehicle status prior to an upcoming workshop appointment	●	●	●	●	Wireless charging system for mobile devices in the rear ³
Remote vehicle finder ¹ – available to use free of charge for three years following activation ² indicators activated via the app help to draw attention to the vehicle, for example in large, confusing car parks	●	●	●	●	Wireless smartphone integration ³
Send2Car function ¹ – available to use free of charge for three years following activation ² , sends selected addresses via the app to the vehicle's navigation system, for example POIs or restaurants	●	●	●	●	
Sliding sunroof/windows with remote closing and opening including ventilation ¹ function to use free of charge for three years following activation ² for a breath of fresh air in the vehicle available	●	●	●	●	

¹The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers ²To use this service, you must register on the Mercedes me portal and also accept the Terms of Use for the Mercedes me connect services. ¹To use this service, you must register on the Mercedes me portal and also accept the Terms of Use for the Mercedes me connect services. In addition, the respective vehicle must be paired with the user account. Upon expiry of the initial term, the services can be extended for a fee. Initial activation of the services is possible within 1 year of first registration or commissioning by the customer, whichever occurs first ²The connection of the communication module to the mobile phone network including the emergency call system depends on the respective network coverage and availability of network providers ³Compatible smartphone required. For further details please visit <https://www.mercedes-benz-mobile.com/>

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your S-Class.

Coolbox

Be it cool drinks, a picnic or baby food: the thermoelectric refrigerator box cools upon request and is the perfect companion on any day out. The thermoelectric refrigerator box cools to up to 5°C, but a max. of 20°C under the outside temperature. This portable coolbox has a textile coating, fitted pockets and a capacity of 13 litres. The coolbox is powered via a 12-volt socket. (A0008205409)

Velour floor mats EXCLUSIV, driver's/co-driver's mat, 2-piece

Exclusive velour mats with exceptionally deep, thick pile, featuring metal badge with Mercedes-Benz lettering. Available in various colours to match your interior. Mercedes-Benz floor mats have to undergo rigorous testing before they are deemed worthy of the star logo. The mats are precision-tailored to your Mercedes-Benz. They can be clip-fastened to the floor of the vehicle to prevent slipping. (A22368065039K26)

Reversible mat

This anti-slip mat by Mercedes-Benz protects the boot floor during loading and unloading. Made from 100% polyester. Double-sided: with rubberised, non-slip side and high-quality velour side. Prevents cargo from sliding around. Protects the load compartment floor from dirt and damp. Easy to clean with warm water. (A2236807604)

Velour floor mats EXCLUSIV, rear, 2-piece

Exclusive velour mats with an exceptionally deep, thick pile. Available in various colours to match your interior. Mercedes-Benz floor mats have to undergo rigorous testing before they are deemed worthy of the star logo. The mats are precision-tailored to your Mercedes-Benz using the vehicle's original CAD data. They can be clip-fastened to the floor of the vehicle to prevent slipping. (A22368082039K26)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Authorised Repairer for more information. Images shown are for illustration purposes only.

¹Figures according to Directive 80/1269/EEC in the currently applicable version ²The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging ³The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 60 kW ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase)

Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO₂ emissions. A first year rate for each taxation band will apply. The table below shows the bands (A-M) created by the DVLA and the corresponding Road Fund Licence. CO₂ emissions and the relevant Excise Duty are shown on the model pricing pages.

Band	CO ₂ emissions (g/km)	First year rate petrol and RDE2 diesel (£)	First year rate alternative fuel (£)	Electric vehicles		Alternative fuel vehicles		Petrol/diesel vehicles	
				Standard rate (£)	Premium rate (£) ¹	Standard rate (£)	Premium rate (£) ¹	Standard rate (£)	Premium rate (£) ¹

Services and insurance

Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your S-Class, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz. With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation. It also covers the cost of all recommended service items including brake fluid, spark plugs, air filters, fuel filters and screen wash. You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

[Click here for more information](#)

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects¹ and up to 30 years warranty against perforation due to corrosion from the inside out.² What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.²

Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover³. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Agent. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[Apply for First Cover](#)

¹Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Mercedes-Benz Agents ²Subject to full Terms and Conditions, dependent on date of registration, available upon request
³Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance
