

THE NEW
XL7
HYBRID *Solid & Resilient*

THE NEW **XL7** **(HYBRID)**

Exterior Features

SUV Design

A large front nose with high positioned bonnet creates a bold and masculine front face. The horizontal chrome accent that flows to the DRL that resembles a katana sword, now has additional chrome garnish on the top and bottom framing the Suzuki Emblem on the center.

Side Protection Moulding

Roof Rails

New Grille Design

LED Headlamps
with DRL

LED Taillamps with
Vertical Guide Lights

SOLID & RESILIENT

Just like you, the XL7 is solid, resilient, and ready to meet any challenge. Quick and nimble with bold, dynamic styling and a distinctive profile, it shows the world you're serious even when you're having fun.

Front and Rear Bumpers

Front and Rear Bumpers express SUV underbody toughness with their under guard shape, silver accent and black protection mouldings.

Interior Features

Indulge in XL7's exceptional comfort seating, crafted for the ultimate driving pleasure. Ideal for those who crave a smooth and relaxing long drives.

The XL7's sporty character is reflected in its stylish black interior and silver metallic door accents, and the ergonomically designed cockpit ensures that essential controls are right at your fingertips. In addition, conveniently positioned cabin amenities contribute to the comfort of everyone on board.

New satin silver garnish on dashboard

- 1 Front armrest with storage
- 2 2nd row smartphone holder
- 3 Banknote/coin holder with partition
- 4 Door pockets with 1L bottle holder
- 5 Third row accessory socket with 1L bottle holder

Performance

HYBRID

Fuel efficient K15B engine with Suzuki's Hybrid technology

The Hybrid system recharges the battery with electricity generated by deceleration energy, stops unnecessary power generation during cruising, and reduces engine load during fuel-consuming standing starts and acceleration. It saves fuel while delivering spirited response.

HEARTECT

The smoothly curving frame increases underbody stiffness that delivers excellent fundamental vehicle performance while also contributing to collision safety by efficiently dispersing energy.

Aerodynamics
Computer-aided engineering and wind-tunnel testing ensures a low drag coefficient for excellent aerodynamic performance and fuel economy.

Safety and Environmental Capability

Automatic Lamps

The headlamps automatically come on when the car enters a tunnel.

The headlamps automatically go off when the car exits a tunnel.

SRS Airbag System

Reverse Parking Sensors and Camera
