ASTON MARTIN DB7 GTS

White GTS instrument dials and wood rimmed steering wheel are complemented by the wooden gear knob.

Yellow edging to overmats discreetly reflects the traditional styling around the nose cone.

The sports exhaust system will be the only hint most people get of the enhanced performance.

The exhaust note is, as expected, glorious and Aston Martin.

Air louvres set into twin Zagato style bonnet bulges, split rim speedline alloy wheels with colour coded centres further define the DB7 GTS to the informed observer.

Window quarters and scuttle panel are also colour coded.

The yellow nose cone surrounding the Le Mans style mesh grill brings back memories of the DB3S.

A fine yellow coachline and commemorative plaque complete the distinctive GTS package.

ASTON MARTIN DB7 GTS

Commissioned and built exclusively for Aston Martin Sales of Mayfair.
The DB7 GTS recaptures some of the character and pedigree inspired by earlier, historic, Aston Martin sports racing cars.

Wheels are lightweight,
five spoke magnesium.

Also available
are 'Aliseo' and 'Mistral'
split rim alloy wheels
which can be colour coded
on request.

A Garrard
Swiss analogue clock
replaces original equipment.

Bespoke
audio equipment and
car telephones can be installed
to customers own specification.

Tailored luggage
makes optimum
use of boot space and is
available in standard green finish
or
custom trimmed
to match the interior
of your car.

Halfwood leather steering wheel
is available for
airbag equiped cars.

A choice of wood veneers
in addition to standard burr walnut
can be specified, as can veneer
to the instrument binnacle.
